**Attachments:** GP-Crossett\_BiweeklyReport\_06-14-17\_to\_06-27-17\_r1.pdf

Dear Ms. Simmons,

Attached is the revised biweekly report for H2S and met monitoring at the Crossett Mill covering the period of June 14, 2017 – June 27, 2017. This revision addresses a typo on the second page of the report.

The following change was made:

*On ~~July~~ June 27<sup>th</sup> TRC personnel were on site to perform maintenance and to troubleshoot calibration system, resulting in approximately four hours of data loss. Due to the maintenance performed on the 27<sup>th</sup>, there was not a calibration check on that day, however the check on the 28<sup>th</sup> was within the acceptance criteria.*

Please use this report to replace the previous report for this biweekly period issued on July 13, 2017.

Thank you  
Melita Lihzis
